

# HORTICULTURAL BENCHES

Winter Gardenz horticultural benches are strong and durable commercial grade benches that are practical and versatile. Suitable for indoor, outdoor and greenhouse use, the Winter Gardenz range of benches is designed and manufactured in New Zealand and built to last. All benches are made to a very high standard and are constructed from quality materials that will provide years of trouble free service. There are a range of sizes from 0.6m to 1.5m (W) x 2m to 16m (L) and styles to suit most common horticultural applications, including Stationary benches, Mobile benches and Sliding benches. Platform mounted rolling benches are also available. Benches are designed to carry a maximum weight loading of 70kg/m<sup>2</sup>, with custom sizes, configurations and increased load ratings available.

## STATIONARY BENCH

with height adjustable rubber feet.

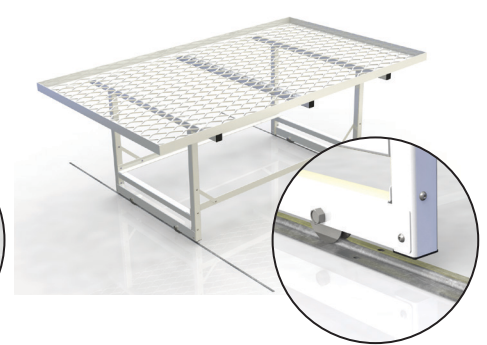

## MOBILE BENCH

fitted with Stainless steel swivel/braked rubber caster wheels.

## SLIDING BENCH

with fixed wheels that roll on a galvanised steel track attached to the floor.

## STANDARD BENCH SPECIFICATIONS

### DIMENSIONS & CAPACITY

BENCH TOP HEIGHT	Aprox 800-900mm as standard Other heights are available
BENCH TOP WIDTH	Aprox 0.6m, 1m, 1.2m, 1.5m
BENCH TOP LENGTH	Aprox 1.2m, 2m, 4m and 6m as standard, but lengths up to 16m are available
MAX WEIGHT CAPACITY	70kg/m <sup>2</sup> as standard Optional heavy duty benches are available

### MATERIALS

FRAME	Aluminium extrusion welded with bolt/fastener connections. Optional powder coat finish
FASTENERS	All stainless steel
MESH TOP	Aluminium expanded mesh, or optional steel/galv mesh or Stainless steel mesh
FLOOD & DRAIN TRAY	Grey, plastic (high impact polystyrene)

All benches are available with either a mesh top or supplied with a Flood & Drain tray (Ebb & Flow) to suit.

Benches are generally constructed using aluminium (with optional powdercoat finish), but can also be constructed using steel (galvanised finish) or Stainless steel. Custom sizes and configurations are available.
